INTERNSHIP EXPERIENCE

Full Stack Intern – EduPhoenix Solutions

Aug 2026 – Sep 2026

- Collaborated with a development team to build and maintain responsive web applications, applying structured problem-solving to debug issues and improve application performance.
- Worked with MySQL databases to store, organize, and retrieve application data, strengthening database management and data-handling skills.
- Built and integrated RESTful APIs to connect application components, supporting reliable data flow between systems.
- Used Git and GitHub for version control and team collaboration, ensuring organized source management across the project.

PROJECTS

Mini E-Commerce Store | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack e-commerce application with React.js frontend and Node.js/Express.js backend, implementing product browsing, cart management, and order placement.
- Built RESTful APIs for product and order management and integrated JWT, bcrypt, Helmet, CORS, and rate limiting for backend security.
